

Welcome to New Patients

Dr. Bressler is delighted to welcome new patients to the practice.

Appointments are available for:

Primary Care

Consultations in:

Natural Medicine (herbs, medical foods, supplements, etc)

Functional Medicine (use of expanded biomarkers and physiological testing)

Second Opinions

Wellness and Longevity

BioIdentical Hormone Replacement

Medical Counseling in:

Lifestyle Change (in coordination with Stephanie Burbach)

Dr. Bressler is not an “in-network” physician for any of the insurance companies. Our practice uses a “direct pay” system by which patients pay for their medical services on the day they receive them. Each patient is given an itemized billing statement with all the information needed to submit to their insurance company for reimbursement.

We are not accepting new Medicare patients for primary care or for standard medical services. We do welcome new Medicare patients who would like to see Dr. Bressler for Natural Medicine or Wellness and Longevity Consultations and any other services that are **not** covered by Medicare. Medicare patients, like all patients, will pay directly for such consults or counseling.
